

THE ART OF LEARNING DATA SCIENCE

By Chanin Nantasenamat
(aka Data Professor)

Planning Tips

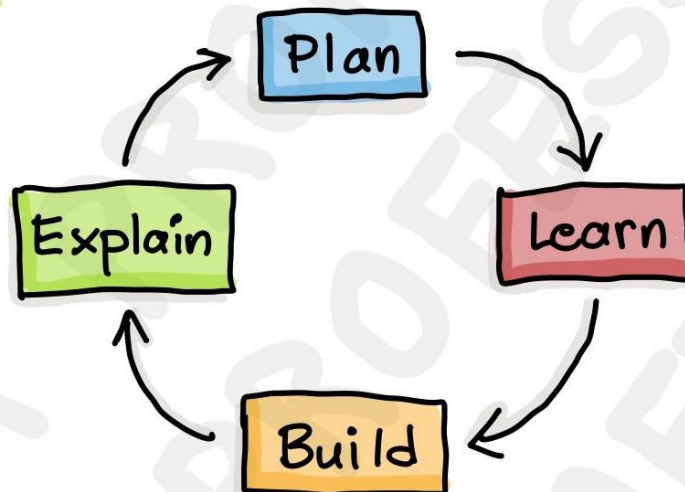

- Set learning goals
- Create your own personal curriculum
- Making a schedule
- Consistency
- Accountability

Learning Tips

- Learn just enough to start building
- Apply Pomodoro to manage learning time
- Minimize stuck time
 - Get stuck? Move on and come back to it later

Explaining Tips

- Explain your model to others
- Teach others (Feynman technique)
- Mentor others
- Write blog posts
- Build well documented GitHub repository
- Make YouTube videos
- Give talks at meetups, conferences and podcasts
- Draw infographics

Learning Resources

1. Watch
 - YouTube
2. Listen
 - Podcast on YouTube, Spotify, SoundCloud, etc.
3. Read
 - Books
 - Medium
4. Do
 - Online learning platform

Building Tips

- Work on work-related projects
- Work on weekend projects
- Use public datasets or compile your own
- Compete on Kaggle
